

NEWS RELEASE

TSX-V: WCB

July 12, 2010

WCB Resources Ltd. Completes Summer Exploration Program at Maroon

WCB Resources Ltd. ("WCB") (WCB - TSX.V) is pleased to announce that it has completed the first round of drilling and channel sampling on the Bear Vein System situated on its 1059 hectare Maroon Property that is located 35 km north of Terrace, BC.

This first phase of the program concentrated on the mineralization on the north flank of Maroon Mountain known as the Bear Vein. The vein lies conformably below a distinct conglomerate horizon that can be traced for over 10 kms. The Bear vein itself can range in width from 0.5 to 2.0 meters wide and can be traced at surface for about 480 meters. A total of six holes and nine trenches were completed in early July. This puts the total number of holes in the system now at eight along a continuous strike length of 320m. The drilling tested the vein to a depth of approximately 35m.

70 drill core samples and 32 channel and grab samples have been sent to ALS laboratories in Vancouver for analysis. Results will be published as soon as possible

About WCB Resources

WCB Resources is a minerals exploration and development company that brings together a strong, interdisciplinary, and proven management team with the ability to take a project from discovery right through to operation. The Company was listed in April 2010.

WCB's strategy is to build shareholder value through acquisition, exploration and development of copper gold projects. This strategy is being developed by a synthesis of WCB's core skills in project evaluation, structured acquisition, exploration and project development and operations, areas where WCB directors and executives have significant experience.

We believe that our capabilities and experience, combined with an efficient corporate structure, provide tremendous potential upside for investors. WCB Resources is engaged in an ongoing search and evaluation of additional copper gold projects in various regions around the world.

Mr. Cameron Switzer, BSc (Hons), MAIG MAUSIMM, President and Chief Executive Officer of WCB Resources, is a qualified person as defined by National Instrument 43-101. He will be responsible for quality control of exploration undertaken by WCB. Mr. Switzer has reviewed and approved the technical information in this release.

On behalf of the Board of Directors

Cameron Switzer
President and Chief Executive Officer
