Drilling Commences on Red Hill Project

WCB Resources Ltd (“WCB” or the “Company”) (WCB - TSX.V) is pleased to advise that drill testing of the Red Hill Project high order anomaly has commenced with the collaring of Hole WRH001 on Wednesday the 16th November 2011. WRH001 has a targeted depth of 400m and is anticipated to be completed in 14 days.

Results will be provided as soon as geological logging and assay data has been validated and verified which is expected during January 2012.

The Company has previously provided exploration updates pertaining to highly encouraging coincident results from soil sampling, rock chip sampling, and IP surveys on the Red Hill Project.

Further details of this announcement can be located at www.wcbresources.com/news-releases/. Additional details on the Red Hill project, including geology, geochemistry, and geophysics, can be found in the latest presentation located at <http://www.wcbresources.com/presentations/>.
